

Report Identification Number: RO-21-022

Prepared by: New York State Office of Children & Family Services

Issue Date: Mar 14, 2022

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 4 year(s)

Jurisdiction: Monroe
Gender: Female

Date of Death: 09/27/2021
Initial Date OCFS Notified: 09/27/2021

Presenting Information

Monroe County Department of Human Services (MCDHS) received an SCR report which alleged the 4-year-old child (SC) was playing on an electronic device and drinking ginger ale. The child approached her mother (SM) and made a noise. The child was pale in color and her lips were purple. The mother called 911 and initiated CPR. First responders arrived, took over CPR, and transported the child to the hospital by ambulance where she was pronounced dead. The child was otherwise healthy, and the mother had no explanation for the child’s death. The maternal grandmother (MGM) who lived in the home was also named as a subject of the report. The 14-year-old cousin (OC), and maternal aunt (OA) had unknown roles.

Executive Summary

This report concerns the death of a 4-year-old child which occurred while in the care of her mother and maternal grandmother on 9/27/2021.

The child had developmental delays and was non-verbal. On 9/25/2021, the child displayed signs of illness and had a fever and began vomiting. The mother treated the child’s symptoms with over-the-counter medication on 9/25/2021, 9/26/2021, and 9/27/2021 with improved symptoms. On 9/27/2021, the child was drinking ginger ale and indicated to the mother she wanted more. The mother got up to get the child more to drink and heard her moan and turned and saw her eyes had rolled back in her head. The mother immediately called 911 and the child was transported to the hospital where she was pronounced dead.

The grandmother, cousin, and aunt were interviewed and confirmed the child had displayed signs of illness and appeared fine following treatment from the mother. The grandmother and cousin lived in the home and were present at different times throughout the days the child was displaying signs of illness. The aunt did not live in the home, though visited often. The aunt was not present in the home when the child was sick. The grandmother, cousin, and aunt disclosed no concerns for the care of the child by the mother. The father was incarcerated and MCDHS contacted him by phone. The father disclosed no concerns for the mother’s care of the child.

The doctor treating the child in the hospital informed MCDHS the child had a respiratory illness and the information provided by the mother was consistent with her symptoms. The child displayed no signs of abuse or maltreatment and was in cardiac arrest upon arrival at the hospital and was later pronounced dead.

The medical examiner could not confirm a preliminary cause of death and confirmed the child displayed no signs of abuse or maltreatment. The final autopsy was pending at the time this report was written.

The allegations of DOA/Fatality and Inadequate Guardianship were pending, and the investigation remained open at the time this report was written. Bereavement services were offered to the family and declined by all parties.

LDSS Response

MCDHS received the SCR report, informed the DA and ME of their involvement, and coordinated their response with LE. MCDHS met LE at the hospital to interview the SM.

The SM stated the SC was diagnosed with a blood disorder, was born premature, and was limited verbally. The SM stated the SC showed signs of illness beginning on 9/25/2021. The SC took a nap, in the afternoon and had a fever and began vomiting in the evening. The SM administered over the counter medication and the SC's symptoms improved. The SM continued to treat the SC's symptoms throughout 9/26/2021 and 9/27/2021. On 9/27/2021, the SC appeared to be improving and was eating and drinking more. The SC was playing with an electronic device and drinking ginger ale. The SC indicated to the SM she wanted more and the SM stated she got up to get the SC more then heard the SC moan and watched her eyes roll back in her head. The SM immediately called 911 and the SC was transported to the hospital by ambulance. In a later interview, the SM admitted to seeing the SC's lips appearing bluish in color throughout the day of 9/27/2021 and attributed the discoloration to the over-the-counter medication she was administering to the SC.

MCDHS interviewed the doctor that treated the SC upon her arrival at the hospital. MCDHS was informed the SC had a respiratory illness and the SM's treatment was consistent with the symptoms the SC displayed. The SC arrived at the hospital in cardiac arrest and was pronounced dead after life saving interventions failed. The SC displayed no signs of trauma or injury.

The MGM, OC, and OA were interviewed in the home. The OA did not live in the home and had limited knowledge of the

SC's illness prior to their death and disclosed no concerns for her in the care of the SM. The MGM disclosed the SC had some developmental delays and received intervention services through school. The MGM and OC confirmed the SC had displayed signs of illness though appeared fine after taking medication administered by the SM.

MCDHS spoke with the ME. The final autopsy was pending, and an official cause and manner of death were not yet available at the time this report was written. The SC displayed no signs of abuse or trauma during the preliminary autopsy.

The allegations of DOA/Fatality and Inadequate Guardianship against the SM and the MGM regarding the OC were pending, and the investigation remained open at the time this report was written. Bereavement services were offered to all family members and declined.
