## INTRODUCTION

The Monitoring and Analysis Profiles (MAPS) are data packages that provide information on the major child welfare services provided by local Departments of Social Services (DSS). MAPS was developed in 1985 to support the program monitoring role of the Regional Office staff and New York State Office of Children and Family Services (OCFS). Since then, the MAPS packages, which are produced annually, have also been disseminated to assist in child welfare planning and decision-making.

This MAPS package provides data on Child Protective Services (CPS), Foster Care, and Adoption for all counties. It contains detailed information for 2021 and charts of selected trend information for the five-year period, 2017-2021. Data for all counties other than New York City are contained in separate packages.

Program data on Child Protective Services, Foster Care, and Adoption are taken from the CONNECTIONS Activity Module, formerly the Child Care Review Service (CCRS) database. This is a statewide, computerized child welfare database.

The current MAPS package was developed based on the data contained in OCFS Data Warehouse on March 17, 2022, and from the CONNECTIONS database as of March 17, 2022. The numbers in the MAPS package may differ from those that appear on routine reports that are distributed by OCFS either because they are taken from the databases on different dates or because the definition of a term differs. Additionally, reporting lags by some Local Social Services Districts affect all Foster Care and Adoption data.

In most instances, numbers are converted into rates or percentages to highlight important aspects of the child welfare service programs. The use of rates and percentages is a critical component of MAPS, as it allows for comparisons by controlling for differences in population. The population figures used to calculate rates for 2017 through 2019 are taken from the 2018 Complete New York and New Jersey Demographic Database Files, Woods and Poole Economics, Inc. Starting from 2020 MAPS reporting, the population figures will be based on the annual vintage postcensal estimates of the resident population of the United States compiled by the National Center for Health Statistics. For Child Protective Services data, rates are calculated based on the number of children ages 0 through 17 because very few reports are taken on youth aged 18 and over. However, since OCFS does have children in foster care 18 years old and above, the rates for Foster Care and Adoption are based on the number of children ages 0 through 21.

The MAPS package focuses on developing a profile of the child welfare services programs in each Local Social Services District. The data describe what are believed to be key, measurable characteristics of county child welfare services. The package is designed to provide a framework within which to examine the relationships among variables, raise questions, and initiate discussions about child welfare programs. It is not intended to judge performance or to focus attention on a single variable.

Definitions necessary to understand the data are printed at the bottom of the appropriate page. These definitions also apply to the multi-year data pages. Appendix A contains additional clarifying information to facilitate an accurate interpretation of complex variables. Careful review and use of the MAPS package are required to understand the data.

*In summary, MAPS is not intended to be a package of indicators by which performance may be judged. Rather, it is intended to provide a framework within which reasoned questions can be asked by those who have been trained to its uses and limitations and who have substantive knowledge of the child welfare system in New York State.* Questions about this data and suggestions and/or comments related to the design of this package may be directed to Hui-Shien Tsao, Research Scientist, Bureau of Research, Evaluation and Performance Analytics, 52 Washington St., 3rd floor, Rensselaer, New York 12144-2796, or (518) 474-6791. ## **APPENDIX A: CLARIFICATION OF DATA SOURCES AND DEFINITIONS**

This appendix clarifies definitions or specifies which data were used to produce the Child Protective Services (CPS), Foster Care, and Adoption components of the MAPS packages. All Child Protective Services program data used come from the CONNECTIONS database. Foster Care and Adoption data come from the CONNECTIONS Activity Module, the formerly Child Care Review Service (CCRS). Data from 2017-2021 are provided for selected variables. For the definitions of these variables, refer to the MAPS page where the variable appears.

Starting with MAPS 2007, changes were made to the source file, race/ethnicity categories, and the Preventive services pages. Details regarding these changes are found in this appendix.

### **Population Sources**

The population figures used to calculate rates between 2016 and 2019 are taken from the 2018 Complete New York and New Jersey Demographic Database Files, Woods and Poole Economics, Inc. Starting from 2020 MAPS reporting, the population figures will be based on the annual vintage postcensal estimates of the resident population of the United States compiled by the National Center for Health Statistics. The child population includes children under 22 in all program areas except CPS, where only children under 18 are included in rate calculations.

### **Race and Ethnicity Categories**

Prior to 2014, race/ethnicity data in MAPS were based on data entered into CCRS. Since 2014, ALL race/ethnicity data utilized in MAPS is based on CONNECTIONS. Any comparison of race/ethnicity distributions before and after 2014 should be made with extreme caution.

### **Coding of Race/Ethnicity in MAPS**

The Race/Ethnicity categories in the MAPS report use the following classifications:

<u>MAPS Category</u>	<u>Includes</u>
White	White (Not Hispanic)
African American	Black, Interracial Black/White, Interracial Black/Asian Ethiopian, Haitian (Non-Hispanic)
Latino	Interracial Puerto Rican/White, Interracial Puerto Rican/Black, Other Hispanic, Interracial Puerto Rican/Asian, Interracial Puerto Rican/ Other Hispanic, Puerto Rican, Cuban
Native American/Alaska Native	American Indian/Alaska Native (Non-Hispanic)
Asian	Cambodian, Interracial Asian/White, Asian, Laotian, Vietnamese (Non-Hispanic)
Unknown	Interracial Other, Other, Unknown

### **CHILD PROTECTIVE SERVICES (CPS)**

#### **Mandated Reporter**

The list of mandated reporters has been updated in MAPS 2021 to include additional reporter relation types in CONNECTIONS that meet the definition of professionals required to report cases of suspected child abuse or maltreatment. See detailed information in [OCFS Publications 1159](#).

#### **Family Assessment Response (FAR) data**

Starting with MAPS 2009, all CPS pages reflect Family Assessment Response (FAR) data for the counties that participate in this approach to CPS investigations. Beginning in late 2008, several

counties were approved to use an alternative approach with families for some of their CPS maltreatment reports. This alternative approach, known as FAR, is considered a CPS response, even though no determination is made as to whether or not there is some credible evidence of maltreatment. The intent of FAR is to promote child safety and family well-being through enriched family engagement.

## **FOSTER CARE**

### **"Services Prior To/At Foster Care Admission", Page 9**

"On the date of the foster care admission" includes the actual date of foster care admission and up to 30 days after the admission date.

Children receiving Child Protective Services (CPS) are those who are in an indicated State Central Registry (SCR) case that remains open, are in an open CONNECTIONS case, and have a Service Program Choice code of "Protective" in CONNECTIONS.

### **"Admissions, Discharges and In Care, Facility Type by Placement, Location and Age", Page 11**

The "Other" category contains many specialized programs/services that serve very few children. If needed, information on what is included in this category is available upon request.

### **"Days in Care", Page 14**

All facility types (level of care) in the table are determined from specific movement codes entered into CONNECTIONS. The definition of foster boarding home includes emergency foster boarding homes. Some children placed in adoptive homes are counted in the foster boarding home category because that is how the home is coded in CONNECTIONS.

Other: Includes residential treatment facilities, skilled nursing facilities, specialized schools, etc.

Congregate Care: Includes Institutions, Agency Operated Boarding Home (AOBH), Group Home, Group Residence, Supervised Independent Living Programs (SILPs), and Other.

Adoptive Home: Includes Adoptive and/or Adoption Subsidy Home.
